

REMARKS

In the Office Action dated March 22, 2005, the examiner stated that the application contained new matter and was more properly designated a continuation in part. Applicant submits herewith a signed Declaration by the sole inventor DiStasio and amends the first paragraph of the application to identify the application as a continuation in part. Other changes to paragraph 0001 simply refer to the issued patent no. 6,679,663 which was earlier identified as a pending application and change the order of recitation of provisional patent applications. Other examiners have complained about the order of presentation of the chain of priority.

Applicant cancels claims 1 - 6 rejected by the examiner and adds new claims 69 -72 corresponding to claims 2, 3, 5 and 6, now cancelled. Claims 7 and 8 were indicated as being patentable by the examiner in the Office Action. Applicant also submits a terminal disclaimer herewith and pays the \$65.00 fee.

Respectfully submitted,
